

How many MW is a solar power plant in the Ivory Coast?

The authorities in the Ivory Coast have completed a 37.5 MW solar plant, with a second development phase now underway to increase its capacity to 80 MW. The first phase of a solar power plant in the northern part of the Ivory Coast has been inaugurated.

Where will Ivory Coast's first solar power plant be located?

Ivory Coast is set to commission its first solar power plant in the country's northern town of Boundiali in the Savanes District, approximately 660 km from the country's capital of Abidjan.

How much does the Ivory Coast energy station cost?

Moreover, the Ivory Coast aims to boost energy exports with the station's output while meeting the country's baseload requirement. The construction phase permitted the creation of approximately 800 jobs and will create 75 permanent positions during operations. Total cost of the project is estimated at EUR 404 million.

What is the standard voltage in Ivory Coast?

In Ivory Coast the standard voltage is 230 V and the frequency is 50 Hz. You can use your electric appliances in Ivory Coast, if the standard voltage in your country is in between 220 - 240 V (as is in the UK, Europe, Australia and most of Asia and Africa). Manufacturers take these small deviations into account.
