

How much does a 3KW solar panel system cost?

A 3kW solar panel system costs around £9,000 to buy and install. If you want to add a battery to this system, it'll push the price up by about £2,000, for an overall cost of £11,000.

What is a 1kW to 3KW solar panel kit?

These 1kW to 3kW solar panel kits deliver enough energy for a range of domestic applications such as holiday homes, cabins, workshops, remote offices, stables, summerhouses and other uses. The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits.

How much roof space does a 3KW Solar System take up?

On average, the roof area required for a 3kW solar panel system is around 12m - 17m². With a typical solar panel being 1m x 1.7m, a 3-kilowatt system of 6-8 solar panels would take up that much roof space, depending mainly on the wattage per panel and how the system is tilted.

Is a 3KW solar panel system enough?

A 3kW solar panel system is enough for your household if it approximately matches your annual electricity consumption. But you should always consider getting as large a solar panel system as your roof allows, if you can afford to.

How many Watts Does a solar panel kit have?

The range includes 1200W solar panel kits, 1800W solar panel kits, 2400W solar panel kits and 2700W solar panel kits. Each kit has been specially selected to deliver great value, reliable performance and the ease of installation and everyday use you're looking for. Sunstore can also install your 1kW to 3kW off-grid solar kit if required.

How much does it cost to install a solar panel?

Typically, installation costs make up around 20% of the price you'll pay for a solar panel system, which works out at £1,400 for a three-bedroom house. The price quoted for installing a system usually includes any associated labour costs.
