Why should you choose InfraCo Africa?

InfraCo Africa's support reduces risks and costs, and ensures that projects are developed to the highest standards: from a concept, to a financeable investment opportunity, to a proven operating business.

Uganda is acquiring a new solar power plant. Located in Kabulasoke, a town in the Gomba district of the Central Region, the new infrastructure is owned by Xsabo Energy Limited, a Ugandan company, and Great Lakes Africa Energy (GLAE), a UK-based energy supply company. The solar park has a 24 MW capacity.

The 5th edition of Unlocking Solar Capital (USC) Africa is empowered by the joint forces of Solarplaza and GOGLA, with the support of the Uganda Ministry of Energy and Mineral Development, and organized together with the local ...

From 2016 to today, we have relied on African Energy as a strategic supplier for our solar procurement needs. The company is second to none in its focus on distributing high-quality solar equipment across Africa.

Through this partnership, we have provided access to energy to over 50,000 people in Uganda." - Nathan, All We Are

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides.

Aptech Africa recently designed, supplied, installed and commissioned a hybrid solar system at the GIZ country office in Nakasero, Kampala-Uganda. The system has both a roof and carport mounted totalling to 22.56kWp of solar panels and 30.8kWh of battery storage of BYD Lithium-Ion batteries, The system is hybrid supplying the office from two ...

The 24 MWp Solar PV project is being implemented by Ituka West Nile Uganda Limited, a project company registered in Uganda and fully owned by AMEA Power. The project is located on a 52-hectare site in Ombachi village, Uleppi Subcounty, Madi Okollo District in the West Nile Sub-Region, around 450 km from Kampala.

The government of Uganda has announced plans to to build four solar and wind farms in two regions in Uganda. This follows a signed agreement with Amea Power, an independent power producer (IPP) based in the United Arab Emirates for the development. According to the agreement, a 10MW solar photovoltaic power plant and a 10 MW wind farm ...

Africa is paving the way to a bright solar future driven by a conviction: Solar Energy is the best ally to move forward. ... John has working experience in Europe, the US, the Middle East and the following African countries: Rwanda, Tanzania, Uganda, Kenya, Madagascar, Ethiopia, Ghana, Cote d'Ivoire, Burkina Faso, Nigeria, Mali, Senegal ...

The project is powered by 59 solar panels, 57 of which produce 18,810 watts of power. The power then helps to pump 14,000 litres of water upstream into an 87,000 litre ...

Below Are The List Of Solar Companies In Uganda. Solar Energy (U) Ltd. Solar Systems Kampala. Uganda Solar Energy Association. Power Trust Uganda Limited. Energy Systems Limited. Solar Energy for Africa. Suntopway Solar (U) Ltd. Incafex Solar Systems. Best Solar Companies In Uganda. Village Energy. Solar Uganda. Solar Construct Ltd. Solar ...

Solar companies snapshot. We're tracking Village Energy, SolarVilla and more Solar companies in Uganda from the F6S community. Solar forms part of the Energy industry, which is the 16th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Energy ...

Uganda's Ministry of Energy and Mineral Development has issued a new plan for the country's energy sector,

with solar power to play a central role. It sets out a pathway to meet economic growth and development objectives in a secure, affordable and sustainable way.

Solar project to expand electricity access. Uganda has one of the lowest electricity access rates in sub-Saharan Africa and the West Nile region is one of the regions in the country with the most acute need for quality ...

Jimmy Chaciga is a PhD student at Makerere University in Uganda and recently published an article on solar cookers. Chaciga studied a concept in a laboratory at NTNU and then went to Makerere to build it. It is a small-scale solar cooker with a tank holding 18 litres of sunflower oil combined with a heating element and three solar panels.

We take time to break down available options, trade-offs, and the long-term impact of switching to solar. Your Reliable Partner Helping you switch to cleaner, more cost-effective energy is only the start of our journey together.

In December 2023, a solar water pump was installed in Pulaka Central Village thanks to a generous donation from Kirsh Foundation. Pulaka Central Village was the first hybrid tower to be built in Uganda, now serving 6600 people by pumping liters of water daily to 20 taps over 4115 kilometers of piping throughout the village.
