Ray Builds Cool Stuff's videos on the Apexium 280 battery box and other battery builds have been very helpful to me. I just got some MG 847 in the mail, and plan to use it to reduce resistance in the connections. I plan to sand the contacts WITH the MG 847 to prevent any new oxidation from forming immediately after the sanding.

This price includes: 1 set APEXIUM 48V DIY 280 kits 16pcs EVE LF280K V3 cells 1 pair 1.5m*50mm² inverter cables 1 RS485 connector. Please note we can provide the 48V DIY Battery Case Kit with different configuration, in order to meet all your requirements. No. 1: 48V Empty Box fit for 16S 200ah to 300ah lifepo4 Battery pack.. But no accessories at all.

I got a quote for the 16 x 280AH cells + Apexium DIY Box and cables from battery to inverter was \$2070 then shipping was quoted \$360 (not sure why so much), then \$100 transaction fee??? I think the shipping is too much unless it is because of the DIY box??
