

Where does Aruba get its electricity from?

Aruba currently gets 15.4% of its electricity from renewable sources. The island has sufficient renewable energy resource potential, with excellent technical potential for ocean, wind, and solar renewable energy generation.

What is the cost of electricity in Aruba?

The energy landscape of Aruba, an autonomous member of the Kingdom of the Netherlands located off the coast of Venezuela, is outlined in this profile. Aruba's utility rates are approximately \$0.28 per kilowatt-hour (kWh) (below the Caribbean regional average of \$0.33/kWh).

How much energy does Aruba consume annually?

Aruba has an annual consumption of 990 gigawatt-hours (GWh). Currently, about 13% of its generation comes from a 30-MW wind project and 0.9% comes from waste-to-energy (WTE) biogas. An additional renewable capacity of 34 MW is planned or in progress. Aruba's installed generation capacity is 230 megawatts (MW) with an average load of 100 MW.

Is biomass a source of electricity in Aruba?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Aruba: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Is Aruba a fossil fuel island?

Aruba remains dependent on imported fossil fuels, as more than 80% of the island's electricity is generated using heavy fuel oil. This leaves Aruba vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Does Aruba aim for sustainable development?

Aruba has announced its commitment to sustainable development, as stated in the 2011 document titled "The Green Gateway". During the Rio +20 United Nations Conference on Sustainable Development in 2012, the country declared its goal to achieve 100% renewable energy use by 2020.

ORANJESTAD - De eerste Caribbean Climate and Energy Conference, CCEC heeft volgens de Nederlandse overheid concrete resultaten opgeleverd, zoals samenwerkingsovereenkomsten voor meer duurzame en betaalbare energie op Aruba, Sint-Maarten en Curaçao, een nieuw op te richten vierlandenoverleg en een routekaart voor de ...
