

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

What is net metering in the Bahamas?

This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill. Our goal is to design and build systems that can achieve maximum independence from the ever increasing cost of power.

What is the return on investment in the Bahamas?

In The Bahamas, your return on investment can be as high as 20% or more! There are 2 types of systems. Grid Tied and Off Grid. For both, the key issue is a knowledgeable and trustworthy installer. Proper site assessment (condition and orientation of roof) is a must. Read more.. +Questions to ask your installer.
