The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

Recently, SINOSOAR successfully attained a Solar on-Grid system project in the Marshall Islands, particularly for a Major Supermarket in Majuro. The project aims to build a roof mounted PV system on top of the Supermarket After the completion of this project, it will largely reduce the Electricity Bills for the Supermarket.

The two projects, amounting to US\$53 million, includes a 3MW PV installation that will help the islands increase their renewable power generation, energy efficiency and reliability.
