Users of telecommunication equipment must obtain certification through AGER, STP's General Regulating Agency for telecommunications, postal, water, and electricity sectors.

BESS Utility Interconnection. Integrating a BESS within the context of a microgrid with respect to the electrical utility is often like interconnecting other DER, such as generators and PV solar farms. The PCS used for the BESS will need to comply with the same standards as solar PV inverters (such as IEEE-1547-2018).
