Depending on which sonnen battery is installed at your house, you may have little or no indication that a power outage has occurred without looking at your sonnen battery or the app. The easiest way to tell if you are currently off-grid is to look at your sonnen battery. All sonnen systems will display a green light when off-grid.

The Sonnen Hybrid system cannot function as a backup power supply or UPS without additional components. To enable backup power in the event of a blackout, an external Backup box needs to be installed. The backup box, which looks like a tiny version of the battery system, isolates the house from the grid if it detects any issues with the electricity supply and ...

Solar batteries with discharge limits of 95% or more can risk damaging battery health. This is why sonnen batteries have a set hard limit of 90% - prioritising the long-term health and performance of your battery. By setting up appropriate "Depth of Discharge" (DoD) limits, and regularly monitoring your performance, you can more effectively ...
