

Borough solar power generation project bidding

Could a new solar farm be built in Derbyshire?

An energy firm wants to create two new solar farms spanning 328 acres between two Derbyshire villages. The sites earmarked for the farms are north of Denby and north of Smalley and sit 500m apart. Each solar farm would produce 40 megawatts (MW) of electricity.

What's going on with Amber Valley's new solar farms?

Reports assessing the environmental impact to the area have been submitted to Amber Valley Borough Council ahead of planning applications. An energy firm wants to create two new solar farms spanning 328 acres between two Derbyshire villages. The sites earmarked for the farms are north of Denby and north of Smalley and sit 500m apart.

How many mw can a solar farm produce?

The sites earmarked for the farms are north of Denby and north of Smalley and sit 500m apart. Each solar farm would produce 40 megawatts (MW) of electricity. The government would usually decide whether planning permission is granted for a solar farm producing 50MW, but Amber Valley Borough Council will have the final say on each application.
