

What is the energy supply of Brunei Darussalam?

In 2015, the total primary energy supply (TPES) of the country for both energy sources was 3.26 million tons of oil equivalent (Mtoe) in total, with 3.07 Mtoe or 94.3% from natural gas (Table 3.1). Brunei Darussalam has 922 MW of installed capacity in power generation of public utilities, including a solar photovoltaic (PV) at 1.2 MW.

How much energy does Brunei need?

In 2005, Brunei's total energy needs were 2,435 KTOE. As of 2022, approximately 127,000 barrels of oil and 243,000 barrels of natural gas equivalent are produced daily by Brunei's oil and gas fields. A refinery used for the oil field in Seria. In 2005, oil supplied 24.4% of Brunei's total energy needs.

Who oversees the energy industry in Brunei Darussalam?

The energy industry is overseen by the Petroleum Authority of Brunei Darussalam, which hands out PSCs and ensures participants adhere to policies set down by the state. Brunei Shell Petroleum is the largest oil producer in the country, accounting for around 90% of oil and gas revenues.

Is Brunei a natural gas or oil based country?

Brunei's total primary energy supply (TPES) and total final energy consumption (TFEC)'s historical oil and gas trend, particularly, 80% and 20% of TPES are made up of oil and natural gas, respectively. Oil saw annual increase of 0.7% from 2010 to 2017, however natural gas saw annual growth of -0.9% because of a decline in natural gas output.

Why is Brunei Darussalam independent from energy imports?

The country is independent from energy import, due to its vast domestically available oil and gas reserves. Brunei Darussalam has the ninth largest Liquefied Natural Gas (LNG) reserve in the world as well as the fourth largest oil producer in South East Asia region.

What is the oil and gas industry in Brunei?

Brunei's oil and gas industry has come a long way since the first well was discovered in 1899. The production of hydrocarbons now accounts for around half of the nation's GDP. The energy industry is overseen by the Petroleum Authority of Brunei Darussalam, which hands out PSCs and ensures participants adhere to policies set down by the state.

The company's joint venture partners in the asset are Shell Deepwater Borneo with a 35.0 percent interest and Brunei Energy Exploration with 27.5 percent. The concession tenure is up to November 2029, with the right to extend beyond this period, subject to the mutual agreement of the joint venture partners, according to the release.
