Rezolv Energy power producer said it has selected three companies - CMC Europe, Solarpro and Green Solar Energy - to build a 229 MW solar park in northeastern Bulgaria.

In the last decade, solar power capacity has grown tremendously to become the fastest-growing source of renewable energy in the world. Solar power directly contributes to the Bulgaria's energy security and independence, as well as helping to meet rising electricity demand and CO2 emission reduction goals.

Actis-backed Rezolv Energy has selected three companies - CMC Europe, Solarpro and Green Solar Energy - to build the 229MW "St. George" solar park in Silistra Municipality in Northeastern Bulgaria. Construction work is due to start very shortly, with the plant coming onstream next year.

The high voltage work will be delivered by Green Solar Energy, another Bulgarian company. About the St. George solar park The 225MW St. George solar park will be built on a brownfield site: the former Silistra airport, a decommissioned airfield in north-eastern Bulgaria covering 165 hectares.
