Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...

Calpine energy solutions Cocos Keeling Islands

If going with the flow is how you roll, you will love the Cocos Keeling Islands. They have a small - very small - country town vibe. Your activities revolve around the exquisite lagoon whether they be snorkelling, diving, fishing, parasailing, or just relaxing under a coconut palm reading a book while inhaling the frangipani infused air

A geothermal resource occurs when water deep below the Earth's surface is heated by exposure to hot, permeable rock, resulting in dry steam or hot water. This steam is then used to spin a turbine to generate renewable energy. Calpine operates The Geysers, the largest complex of geothermal energy facilities in the world.

The Cocos (Keeling) Islands are a group of two coral atolls with 27 islands, located about halfway between Australia and Sri Lanka. Only two islands are inhabited, West Island and Home Island, with a combined land area of about 14 square kilometers (5.4 square miles).

Disclaimer. Renewable Energy*: None of the products, instruments or services that Calpine Energy Solutions is marketing or selling constitutes a "voluntary carbon offset," as that term is defined by Part 10 of Division 26 of the California Health and Safety Code, and Calpine Energy Solutions makes no representation regarding the ability of any customer or other person to use ...
