

Containerised generators offer increased levels of weather protection for the generator unit in harsh environments. For example they're ideal for exposed locations, marine environment, oil and gas applications. As they're enclosed in a secure container that is usually a clean environment they often require less maintenance.

The Atlas Copco QAC 1500 TwinPower generator is a 20-foot containerized generator providing over 1 Megawatt of prime power! We understand your need for power, versatility and reliability. The two 725kVA generators inside make it perfect for applications that have variable power needs, especially in the Industrial Power Plant (IPP), Events, Oil ...

The Containerized Series generator sets are designed for harsh weather and strict acoustical standards, utilizing a standard 40" high cube container equipped with an array of innovative features, allowing the system to operate reliably even in the hottest environments - validated at ambient temperatures of up to 50 degrees Celsius.
