

How do I Open my Tesla Model 3/y glovebox?

You can open your Tesla Model 3/Y glovebox by asking the Tesla Voice command (open glove box), the in-car digital screen (car icon > Open Glovebox) or taking the DIY route if it's stuck, using the manual release latch. In this guide, I will show you all the above three methods, step-by-step.

Does Tesla have a glove box?

Often forgotten, the glove box inside the Tesla is a bit different from the ones you're used to. Most notably, there's no handle or latch on the glove box to pop it open. Always taking security to the next level, Tesla wanted you to feel confident leaving important papers or valuables in your glove box.

How do you open a glove box on a Ford Model 3?

Here's how you can use voice instructions in your Model 3 to open the glove box: Find the voice activation button mounted on your steering wheel and press and hold it. Say "open glove box." A message pops up on the screen letting you know that the glove box is opening. Voila! The glove box is open, with its lights turned on.

What's inside a new Tesla?

With so many shiny new things inside your new Tesla, it can be easy to overlook some of the standard features and accessories that you come to expect in any vehicle. Often forgotten, the glove box inside the Tesla is a bit different from the ones you're used to. Most notably, there's no handle or latch on the glove box to pop it open.

How do you open a car glove box?

This last method is a bit more complicated and might seem like you're breaking into your glove box as opposed to just opening it. To manually open your glove box: Open the passenger door and pop off the side panel of your glove box. It's only held on by a couple of clips, so it's not that hard to take it off.

How do I Open my glove box?

Tapping your way through the screen is another easy way to get your glove box opened. Here's how: From the main screen, tap on the car icon. From the Quick Controls menu, find the icon that looks like an open glove box (Hint: It should also say beneath it "Open GloveBox"). Then you'll also need to enter your PIN if you've set one up.
