The finished result will be a high quality solar generator with more serviceability and customization options to your own needs than the ready made units. Note: The original design of this DIY solar generator used a 2,000 watt inverter. We have upgraded it to the new 3,000 watt model in the latest version along with LifePo4 battery, and other ...

Here's a copy/paste of a post I made recently comparing a \$3200 EcoFlow solar generator (that price, BTW, doesn't even include the "solar" part from the company selling the unit). You can see that I can actually completely beat out the unit, even including panels, for about half the cost of the EcoFlow unit by itself.
