The two solar projects are in addition to three Clearway solar projects that are currently under construction and ...

METRO EAST: watch out for Clearway Solar door-to-door scams going around recently Traveling scam artists (essentially) going around trying to get people to buy into community solar. They will lie to your face and tell you "absolutely no cost to you ...

Clearway Energy Group is leading the transition to a world powered by clean energy. Along with our public affiliate Clearway Energy, Inc., our portfolio comprises approximately 11.4 GW of gross generating capacity in 26 states, including 9 GW of wind, solar, and battery energy storage assets, and over 2.4 GW of conventional dispatchable power ...

About Clearway Energy, Inc. Clearway Energy, Inc. is one of the largest renewable energy owners in the US with over 5,000 net MW of installed wind and solar generation projects. The Company's over 7,500 net MW of assets also include approximately 2,500 net MW of environmentally sound, highly efficient natural gas generation facilities.

The project on the island of O'ahu, Hawaii. Image: Clearway Energy Group. Independent power producer (IPP) Clearway Energy Group has brought a 36MW solar PV plus 144MWh battery energy (BESS) storage system project online in O'ahu, Hawaii, delivered by energy technology firm Wärtsilä.

Clearway Energy Group officials released the site of its planned solar utility project on Monday and Tuesday at two events. The areas shaded in brown are where the solar panels will be located. The dark area at the top of the map is La Cygne Lake with the power plant jutting into the lake at the upper center. The lower third of the project area will remain ...

Clearway has 7.7 GW 1 of wind and solar assets in operation through its listed subsidiary CWEN and has a 25 GW pipeline of renewable and storage projects, of which 15 GW are in an advanced stage of development. ...

Details of the three withdrawn Clearway projects are as follows: Makana La Solar - 80MW of solar generation paired with a 80MW/480MWh BESS located on the island of Oahu. Kaiwiki Solar - 55MW of solar generation co-located with a 55MW/220MWh BESS located on Hawaii Island.

Clearway Arica Solar PV Park is a 265MW solar PV power project. It is planned in California, the US. The project is currently in permitting stage. It will be developed in single phase. The project construction is likely to commence in 2022 and is expected to enter into commercial operation in December 2023.

This is correct. It's a legit business, but Clearway in particular is just a shady company that uses pushy sales tactics combined with horrible customer service. Their BBB rating backs this up (2.61/5). Do what you have to do to get out of the contract, and if you're still interested in community solar, look in to Nexamp or BlueWave Solar.
