

Macquarie Green Investment Group Renewable Energy Fund 2 (MGREF2) has acquired a 50% stake in UK renewable developer Island Green Power. Concurrent to this, Macquarie Asset Management - which manages the MGREF2 on behalf of its institutional investors - has also acquired a stake in a 65MW ready-to-build solar project in Suffolk, UK.

Scuba diving at Cocos Keeling islands is nothing short of spectacular. Fabulous visibility, pristine coral reefs, abundant marine life and all the trappings of a tropical paradise without the flashy resorts. Yes, it is isolated and it takes some effort to get there, but this is more than offset by the quality of the diving, the friendly locals ...

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Cocos Islands varies significantly throughout the year. The wetter season lasts 6.1 months, from January 16 to July 20, with a greater than 28% chance of a given day being a wet day. The month with the most wet days in Cocos Islands is March, with an average of 13.6 ...

Island Power Co Pty Ltd ABN 35 617 149 032, EC14572. Electrical contractor and civil contractor, Cocos Keeling Islands. Office 2, Administration Building, Cocos Keeling Islands WA 6799

The 63.3MW Calatagan Solar Farm, which was the largest in the country when it was commissioned in 2016. Image: Solar Philippines. The Board of Investments (BOI) in the Philippines has given a "green lane certificate" for a solar and storage project said to be the largest in the world, enabling it to proceed at a quicker pace.

Our next-gen concentrated solar power (CSP) plants capture the sun's energy at a higher temperature (970C) than regular CSP and store it in simple ceramic pellets. The result is inexpensive renewable storage that doesn't use costly batteries or messy molten salts. This higher-temperature capture results in higher efficiencies at a lower cost.

Solar farm owner Toucan Energy Holdings has reportedly entered into administration, with the company's main creditor Thurrock Council having run up debts of around £1.5 billion. As the company responsible for the day-to-day management of financier Liam Kavanagh's solar farms, Toucan has been embroiled in controversy in recent months.

Over the course of September in Cocos Islands, the length of the day is gradually increasing om the start to the end of the month, the length of the day increases by 19 minutes, implying an average daily increase of 40 seconds, and weekly increase of 4 minutes, 37 seconds.. The shortest day of the month is September 1, with 11 hours, 53 minutes of daylight and the ...

Under the Power Solutions Division banner Piller solutions for Microgrids provide vital frequency and voltage stabilisation and grid gate technology that protects against outages in Microgrids whether integrated or in island mode. For Microgrid power applications, The Power of 10 features Piller Integrated Power Conditioning Technology (IPCT).

Over the course of October in Cocos Islands, the length of the day is gradually increasing om the start to the end of the month, the length of the day increases by 20 minutes, implying an average daily increase of 39 seconds, and weekly increase of 4 minutes, 35 seconds..
