How has IDD energy benefited WH Smith?

"Our longstanding partnership with IDD Energy has allowed us to deliver savings of millions of pounds across energy reduction projects, billing and energy procurement. IDD Energy have worked across our entire estate, rolling out projects rapidly and successfully" Clare Meehan, WH Smith Head of Stores Finance.

Energy prices saw an unprecedented rise in the last few years, reaching their peak at the end of the summer of 2022. Fortunately, the situation for wholesalers has changed and prices have now fallen. This makes the first quarter of 2024 the ideal time to ...

Our buildings are not performing as designed, typically having a much greater energy consumption. Achieving Net Zero therefore starts by closing the energy performance gap of our buildings. Indeed, the Greater London Authority's (GLA) "Be Seen" initiative requires building owners to explain their energy performance gaps.

IDD models battery cells electrochemically and determines where the heating occurs in the battery pack through detailed analysis. With IDD's patented cooling module design, your battery module cools faster and healthier.

IDD Energy have worked across our entire estate, rolling out projects rapidly and successfully" Clare Meehan, WH Smith Head of Stores Finance. IDD Energy specialise in large business energy management. With an impressive performance history of delivering fantastic savings through our energy management services, IDD

Energy are a perfect choice ...

The International Energy Agency (IEA) estimates that renewable energy will need to account for at least 65% of global electricity generation by 2030. As well as this, the Paris Agreement dictates that zero-carbon solutions could be competitive in sectors representing more than 70% of global emissions no later than 2030. With this in mind, we showcase some of the ...
