

Will CEZ build a new nuclear power plant in Czechia?

"We are happy to confirm the strong interest of all three bidders in constructing a new nuclear power plant in Czechia," CEZ said in a statement. CEZ will evaluate the bids and send them to the government for final approval, it said, with contracts expected to be signed next year.

Is the Czech Republic a carbon-free power source?

The Czech Republic has been a strong backer of nuclear energy as a carbon-free power source for the future, unlike European Union neighbours Germany and Austria, and is planning new plants in addition to new gas-fired and renewable resources.

How many hydropower plants are there in the Czech Republic?

In the Czech Republic, Turkey, Romania and Poland, CEZ has 46 hydropower plants with a total installed capacity of 2,274 MW (97% large hydropower plants). Czech Republic All major hydropower plants, with the exception of Dalesice and Dlouhé Stránky, are located on the banks of the Vltava, where they form a cascade.

Does Czech Republic rely on nuclear power?

The Czech Republic relies on six nuclear reactors to generate more than a third of its electricity and plans to rely on nuclear power and renewable resources after deciding to phase out coal for energy generation by 2033 to reduce carbon emissions.
