

Dnv energy South Georgia and South Sandwich Islands

Who owns South Georgia and the South Sandwich Islands?

The United Kingdom claimed sovereignty over South Georgia in 1775 and the South Sandwich Islands in 1908. The territory of "South Georgia and the South Sandwich Islands" was formed in 1985; previously, it had been governed as part of the Falkland Islands Dependencies.

What is the ccTLD for South Georgia and the South Sandwich Islands?

The Internet country code top-level domain (ccTLD) for South Georgia and the South Sandwich Islands is .gs. The parts of the islands that are not permanently covered in snow or ice are part of the Scotia Sea Islands tundra ecoregion.

What happened to South Georgia and the South Sandwich Islands?

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.

Are South Georgia and the South Sandwich Islands mountainous?

South Georgia and the South Sandwich Islands are a collection of islands in the South Atlantic Ocean. Most of the islands, rising steeply from the sea, are rugged and mountainous. At higher elevations, the islands are permanently covered with ice and snow.

Are there volcanoes in South Sandwich Islands?

The South Sandwich Islands comprise 11 mostly volcanic islands (excluding tiny satellite islands and offshore rocks), with some active volcanoes. They form an island arc running north-south in the region 56°18'–59°27'S, 26°23'–28°08'W, between about 350 and 500 mi (300 and 430 nmi; 560 and 800 km) southeast of South Georgia.

Where are the South Sandwich Islands located?

The northernmost of the South Sandwich Islands form the Traversay Islands and Candlemas Islands groups, while the southernmost make up Southern Thule. The three largest islands - Saunders, Montagu, and Bristol - lie between the two. The islands' highest point is Mount Belinda (1,370 m or 4,495 ft) on Montagu Island.
