Eltek V-series rectifiers provide industry-leading efficiency in a 2RU footprint. Reliability, scalability, and hot-swap capability make for optimal system design and cost-effective deployment - from initial installation to future upgrades. The high efficiency (HE) models deliver up to 96% conversion efficiency.

Built as a plug-and-play system, the Flatpack S 2U reduces installation time and enables cost-effective deployment. Eltek's Flatpack S high-efficiency rectifiers power the Flatpack S 2U, and typically achieve efficiency levels above 95 percent at 48Vdc output. When combined with Eltek's advanced Smartpack S controller, the system

The Type 4 telecom power outdoor cabinet is new platform generation designed to fit customer needs, configuration flexibility and supports variety of applications. The cabinet is well suited for power, batteries and telecom ...

Welcome to Eltek! First-class power systems for industrial purposes - by the expert in power conversion. The world needs power - our contribution is power systems that reduce cost and environmental footprint of energy usage. Telecom. Data Center. Power Utilities. Railway & Metro.
