

According to a recent study by the International Renewable Energy Agency (IRENA), Equatorial Guinea has the potential to generate up to 3,000 megawatts (MW) of ...

The energy project will ensure the supply of electricity, via the solar system, to more than 24,000 families in the district that is more than 100 kilometers from the city of Dundo. The information was provided on Tuesday by the municipal administrator of Lucapa, Agostinho Paiva, stressing that the definitive load tests are currently underway ...

Los representantes de la firma asiática Huawei se reunieron este viernes en Mongomo con el Ministro de Electricidad y Energías Renovables, el de Obras Pùblicas, Viviendas y Urbanismo, así como representantes de GE-PROYECTOS para transmitirles el deseo de construir en el país una central de energía solar. Por lo visto, la directiva de esta

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting with generators and the existing grid.

El Gobierno de Guinea Ecuatorial ha elegido a la empresa MAECI Solar, una subsidiaria de Management and Economic Consulting Inc. y en colaboración con GE Power & Water and Princeton Power Systems para instalar una planta de ...

The government will launch solar powered outboard motors for fishers across the country in October this year, Vice President Dr Mahamudu Bawumia has announced. The motors would be piloted in Elmina in the Komenda-Edina-Eguafo-Abrem Constituency of the Central Region next month, during which fishers would be trained on how they operated.
