

Does Tunisia have a solar power plant?

First utility-scale photovoltaic plant (10 MW, in Tozeur) was commissioned in 2019 on German money. Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The country currently gets only 3% to 6% of its electricity from renewable sources, mostly from wind and hydro. Solar energy capacity is at 35 megawatts (MW).

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity, co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG, is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

How many solar collectors are installed in Tunisia?

From the commercialisation of SWH systems in 1982 until the end of 2018, the cumulative total area of solar collectors installed in Tunisia is estimated at 1 040 000 m², as shown in Figure 28.

How much money is needed to implement the Tunisian Solar Program?

The total investment required to implement the Tunisian Solar Program plan have been estimated at \$2.5 billion, including \$175 million from the National Fund, \$530 million from the public sector, \$1,660 million from private sector funds, and \$24 million from international cooperation.

"Solar power technology has advanced significantly over the years, making it suitable for both residential and commercial use across Australia. However, it may not be ideal for properties with south-facing or shaded roofs. For further ...

Tunisia has awarded several solar power projects to bidders in a bid to move closer to its international obligations for its domestic renewable share of energy. The combined output of all these solar projects will be 500 MW. The new solar projects will be located in different governorates of Tunisia. The largest of all is [...]
