

What is a Franklin battery system?

Franklin battery system integrates solar,grid,battery storage,and generatorto maximize your solar ROI and improve energy efficiency.

How much does a Franklin aPower battery cost?

After claiming the 30% federal clean energy credit on your taxes,the net cost comes down to \$12,600. How did we get to that figure? Well,the retail price of a Franklin aPower battery is currently listed at \$11,000and the aGate controller is listed at \$3,500. That puts our equipment cost at \$14,500.

How much does a Franklin home power system cost?

As of late 2022,the average wholesale price of the Franklin Home Power system is \$15,000. Add about \$2,500 to that number for installation costs,and you're at \$17,500 all in. For that price,you get one aPower and one aGate.

Is Franklin home power a good battery system?

In AC-coupled battery systems like Franklin Home Power,efficiency tops out at around 90%because the current has to be inverted on its way into the battery and on its way out. With that in mind,the aPower's round-trip efficiency of 89% is on par with its peers. The FHP system can operate in three different modes.

Is Franklin home power a good solar system?

Since its debut in early 2022, the Franklin Home Power system has been very well received by homeowners and industry professionals. Most notably, it's receiving high praise from the solar installers who actually install, monitor, and service home batteries.

Is the Franklin home power system compatible with solar inverter brands?

The Franklin Home Power system is definitely compatiblewith major solar inverter brands like Enphase and SolarEdge and we have yet to come across an instance of incompatibility. Now that we know what's included in the FHP system and how much it costs,let's take a look at what makes this an attractive energy storage option.
