

Free photovoltaic panels installed on roof scam CCTV

Are "free" solar panels a scam?

However, it's important to note that "free" solar panels are not always a scam, but they do require careful consideration. These "free" solar panels are typically offered through solar panel leases or power purchase agreements (PPAs), which allow individuals to install solar panels without the high expense.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

Are free solar panels worth it?

"Free" solar panels will save you money because energy from solar power is usually less expensive than energy from the electrical grid. Keep in mind, however, that these savings from solar energy are possible regardless of if your solar panels are leased versus purchased. The long-term cost savings help you determine if solar panels are worth it.

How do free solar panel schemes work?

'Free' solar panel schemes, also known as rent-a-roof schemes, used to be commonplace a few years ago. These were run by companies eager to cash in on the feed-in tariff (FIT). This guarantees payment in return for electricity generated using renewable technologies, including solar power.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here's what you should know.

415,172 solar panel systems have signed up for an SEG tariff since the scheme launched in January 2020, according to Ofgem data. In the same time frame, 450,531 ...
