The Fronius Symo Hybrid is now compatible with the new generation of battery storage solutions from BYD - the BYD Battery-Box Premium HVM. Together, these two products provide the perfect solution to maximise self-sufficiency: Should the power go out, three-phase loads, such as heat pumps, can continue to be powered using sustainable PV electricity, and the battery can be ...

With Fronius battery charging technology, you can't go wrong - be it troubleshooting, software updates, power supply during servicing or the maintenance of storage batteries. Over 70 years of experience in battery technology. Overview and information on lead batteries, AGM/EFT batteries and lithium-ion batteries.

Both Fronius and Huawei have the same problems as I stated above as they do not have hybrid inverters over 10kW, meaning you get into issues regarding charging your battery properly during the winter months as it will only be hanging off a single inverter and you will need to have a multi-inverter setup for a larger installation as mine.
