Yesterday morning's chaser count though really surprised me. Perhaps it was the 8+3(bonus) point for GD/GD-001 that was the attraction . My SOTA transceiver is an Elecraft KX3 and I use a 40/30/20m linked dipole. Having read many threads about battery recommendations for SOTA, I can share that I use a simple light-weight 4S Li-ion battery ...

Douglas council is to start producing its own sustainable solar energy. The local authority has approved funding for a solar farm to power some of its facilities. The generation facility would be built in Braddan and have a life span of around 20 years. It's thought the savings will mean it'll effectively pay for itself within five to seven years.

A battery storage facility would also store electricity generated during periods of low demand and re-distribute it to the grid when demand is high, or the network is down. ... "Our vision for this solar farm supports both the Isle of Man's response to climate change and the government's ambitions for renewable energy projects to help ...
