

Can I get a solar loan in Curacao?

As you can see the more electricity usage you have, the faster you will earn back your one time investment. Many banks already offer so-called "green loans", financing the purchase of your solar system on Curacao for a monthly installment that may be even lower than the monthly price you pay for electricity now.

Why did the Curaçao utility refuse to give up centralized power generation?

Ginsberg said the Curaçao utility did not like giving up its centralized power generation business model, felt threatened by the rapid uptake of residential solar and was unprepared for the supply/demand mismatch from variable wind and solar.

How much does electricity cost on Curacao?

On Curacao, the costs per kWh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Curacao, please have a look at your electricity bills and calculate the average amount of kWh you use and the money you spend on electricity per year.

Does Curaçao rely on fossil fuels?

Nonetheless, like many Caribbean islands, Curaçao depends heavily on imported fossil fuels and pays a stiff penalty in the form of high electricity rates and gas prices for transportation.
