

What is Ginlong Solis?

Ginlong Solis is a company that provides residential, commercial and utility-scale sectors with sustainable solar products while promoting a scientific, green and humanistic culture. They offer the SOLIS-MINI-3600-4G, a 3.6kW Mini Series inverter with a precise MPPT algorithm and a maximum efficiency above 97%.

What is Ginlong (Solis) Technologies?

Ginlong (Solis) Technologies, with the stock code 300763.SZ, was established in 2005. It is a company that has one of the widest installed bases of string inverters globally. Their inverters convert DC to AC power and interact with utility grids in markets worldwide, reducing carbon footprints and enriching society.

Who is ginlong technologies?

Ginlong Technologies manufacture and develop products for all solar market sectors. Our strength in research and development, coupled with our world class supply chain and manufacturing capabilities mean we are able to tailor and optimise our products for regional markets.

Why should you choose ginlong?

Ginlong's cost-effective solutions for residential, commercial, and utility-scale users deliver value at every level of the solar supply chain, engaging both homeowners and businesses, as well as power producers and renewable energy investors across the globe.

What makes ginlong a great inverter company?

Combining a global supply chain with world-class R&D and manufacturing capabilities, Ginlong optimizes its Solis inverters for each regional market, servicing and supporting its customers with its team of local experts.

Does Solis have a national standard for solar string inverters?

Solis has been actively involved with Chinese national bodies in the formulation of 10+ national and industrial standards and has developed two national standards. As a key participant in laying down industrial standards for solar string inverters, Solis takes its responsibility very seriously.

Ginlong (Solis) (Aktienkode: 300763.SZ) wurde 2005 gegründet und ist heute der drittgrößte PV-Wechselrichterhersteller der Welt. Als globaler Anbieter von Solar- und Energiespeicherlösungen für private, gewerbliche und kommerzielle Kunden schaffen wir Mehrwert in der gesamten solaren Wertschöpfungskette.
