

What is the myenergi Libbi?

The MyEnergi Libbi is an intelligent battery storage system for residential applications. The system combines: The Libbi lets you store your self-generated energy to use when you need it most. Charging the Libbi is possible with excess solar generation or using cheaper overnight electricity tariffs.

Why should you buy a myenergi Libbi battery storage system?

The MyEnergi battery storage system keeps hold of excess energy during the day and distributes it at night. This helps to reduce your energy bills and reduce reliance on the grid. Additionally, the MyEnergi Libbi is known for its sleek design, high efficiency, and durability, making it a smart investment for any eco-conscious homeowner.

Does Libbi work with other myenergi devices?

libbi is designed to work in harmony with your other myenergi devices. Prioritise where stored electricity is diverted, to use in your home, to charge your EV, or heat your hot water. Whether you want to charge libbi from solar, the electricity grid, or a mixture of both, the choice is yours.

What are the benefits of using Libbi & myenergi?

Ultimate Control- The libbi gives you the option to charge solely from solar or through the grid or a mixture of the 2. It also has the capability to optimise grid charging around your energy tariff. Remote Access - The myenergi app allows you to access and control your libbi and other myenergi devices from anywhere in the world.

Where are myenergi Libbi batteries made?

The MyEnergi Libbi batteries are made in the United Kingdom. The company is deeply rooted in its commitment to local manufacturing, believing that it not only ensures high-quality production standards but also significantly reduces the carbon footprint associated with shipping products from overseas.

We created libbi to store your self-generated energy, to use when you need it most. It allows you to capture as much surplus solar electricity as possible, whilst integrating with all other myenergi devices. libbi is modular by design. Each module can store up to 5kWh of electricity so,

The libbi is the new hybrid inverter and battery bundle produced by myenergi. This is the 5kW hybrid inverter and allows for seamless integration between all myenergi devices. Up to 4 batteries can be added to the libbi in parallel, ...
