

Could solar panels save guernsey's 'mouth-watering' economy?

Jack Fletcher, from Renew Guernsey, told ITV News that widespread solar panel installation across Guernsey could not only produce greener energy, reducing the island's carbon footprint, but could also bring 'mouth-watering' economic benefits to the island.

Is there a waiting list for solar panels in Guernsey?

Guernsey firms say there is now a six-month waiting list to have solar panels installed. Credit: ITV Channel Guernsey is seeing an increase in demand for solar panels to be installed on houses with homeowners looking for cheaper energy alternatives. There is now a six-month waiting list for islanders to have panels installed on their homes.

How is Guernsey connected to the European electricity grid?

Guernsey is connected to the European Electricity Grid through a submarine cable link (via Jersey) into the Cotentin peninsula, due east of Jersey.

How many panels should a guernsey home have?

A typical Guernsey home has at least one roof that faces east, south or west, or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels, you can maximise your generation by maximising your roof spaces.

Are Islanders ready to install solar panels?

There is now a six-month waiting list for islanders to have panels installed on their homes. Solar power installation firm Little Green says it has seen a 30% increase in their total residential solar capacity installed in 2023 alone.

Where can I find information on Guernsey and Sark?

Information on Guernsey can be found on the States of Guernsey website ([www.statesofguernsey.com](#)), and information on Sark is available at [www.sark.gov.gg](#). Both Guernsey and Sark are located around 80 miles south of the UK mainland and around 30 miles from the European continent.
