Germany and Denmark have proved that solar - in tandem with wind - can be a major player, even in northern Europe. In 2014 Germany generated more than 6 percent of its electricity from solar. Finland has several aces up its sleeve: solar panels produce more efficiently at cool temperatures and in clean, dustless surroundings.

As the demand grew, Areva Solar Oy (now Salo Solar Oy) was established in 2013 solely for selling solar energy systems. The quick growth of the market also meant that there were more and more cheap, lower quality solar panels available with no guarantee of their durability against the Nordic climate conditions.
