

Who is renewvia Energy Corporation?

Renewvia Energy Corporation is a top 500 Global Solar Developer headquartered in Atlanta, Ga. We design, install, own and operate commercial and community solar power systems across multiple continents, and provide a complete range of solar energy solutions including turnkey solar installation, integrated financing and solar consulting services.

How many MWp of solar projects are available in Iraq?

The Ministry of Electricity has put out the first tender (closed in July 2019) for 755 MWp of solar projects (readily available) for investments. These projects will be allocated in an open, transparent and competitive bid round. A first in Iraq's electricity sector history.

What is Iraq's Energy Plan?

The plan includes several key pillars that support the government's goals to enhance Iraq's power infrastructure, as well as promote decarbonization and energy sector diversification.

How has Iraq's energy system changed over the years?

This has introduced a number of vulnerabilities to Iraq's energy system. For example, payment issues last summer led to Iran cutting exports, significantly exacerbating electricity shortages in Iraq during peak seasonal demand. As oil production has soared, so has the amount of associated gas produced alongside.

How long will Iraq's Electricity projects take to complete?

A first in Iraq's electricity sector history. These projects are expected to complete in 12 months from the point of allocating projects to investors under the Independent Power Producer (IPP) model. By end of 2021, these projects are to become operational.

Will Siemens and GE rehabilitate Iraq's power sector?

A national roadmap of power projects has been prepared by the Ministry of Electricity with the idea to include many major energy companies in projects to rehabilitate Iraq's power sector, including Siemens and GE. In May 2019, Siemens signed an agreement to implement a number of projects under the \$14 billion roadmap.
