

Are You mis-sold loans to install solar panels?

The Financial Services Ombudsman has received around 2,000 complaints from people who claim they were mis-sold loans to install solar panel systems that didn't deliver the promised returns. Many people installed solar panels with the expectation that they would save thousands in electricity costs and even make money by generating power.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Why did people take out loans to pay for solar panels?

Many people took out loans to pay for panels on the promise they would save thousands of pounds in electricity costs and make money generating power. They say they have not had the expected savings, and the Financial Services Ombudsman has had 2,000 complaints. Barclays Bank has put aside £38m to deal with potential claims.

Do I have to pay a tax credit for solar panels?

If you take a loan to pay for the solar panels, most loan providers require you to pay the full tax credit amount toward the loan within 18 months. To protect yourself, gather information about how the federal solar tax credit works, and speak with trusted financial advisors before proceeding.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

Do solar panels save money?

Many people installed solar panels with the expectation that they would save thousands in electricity costs and even make money by generating power. Because the systems are expensive, costing up to £10,000 or £15,000, depending on capacity, many households took out loans to fund them.
