

Is the photovoltaic panel installation scam real

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Is residential solar a scam?

When done right, going solar can substantially reduce your carbon footprint and your energy costs. However, this rare double-whammy of benefits also makes the residential solar industry ripe for scams.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.
