

Who makes JA Solar panels?

JA Solar is one of the largest solar panel manufacturers with third-largest solar module capacity (reportedly 42.5GW/year in 2021). JA Solar has focused on producing a mid-market solar panel for the masses that combines reliability with an affordable price point.

Are JA Solar panels a good choice?

"JA Solar offers high-efficiency solar panels at a mid-range price point, in comparison to their mid-range competitors, JA solar panels are more affordable, have a higher average efficiency rate, and offer a longer product warranty.

How much power does a JA Solar panel produce?

Power output of most home solar panels in the UK is 250W to 400W. JA solar panels are either at the higher end of this range or exceed it. For example, JAM60S20/MR solar panels offer 21 per cent efficiency with a peak power output of 390W, at a lower price than similar solar panels from many other manufacturers.

Is JA Solar a good brand?

The innovation and manufacturing expertise of JA Solar has allowed them to produce a range of cost-effective and efficient solar panels, the most notable being the JAM60S20 solar panel. JA Solar seems to be expanding in a market where competitors such as LG are ramping down their production. Ideal for: Residential and commercial use.

What types of solar panels does JA Solar offer?

These include solar panels for homes and commercial installations. JA Solar offers two main types of solar cell technologies - Passivated Emitter and Rear Cell (PERC or P-Type) and N-Type.
