

Does Italy have a power purchase agreement (PPA) market?

Did you know that the Italian market for Power Purchase Agreements (PPAs) has some of the greatest potential in Europe? Due to improved economics and underwhelming results of subsidy schemes, the number of renewables merchant projects in Italy is growing rapidly.

Why is the PPA market growing in Italy?

As the pressure on companies to decarbonise their power supply grows, their interest to procure green energy through PPAs is also increasing, creating the conditions for the Italian PPA market to grow significantly over the next decade.

How has Aurora impacted Italy's PPA market?

Aurora brought its industry-leading approaches to quantifying PPA opportunities and value to the Italian market, which have already benefitted several PPA signings across Europe. Key highlights discussed: Watch the recording of our recent webinar on the future of Italy's PPA market, held in conjunction with LevelTen Energy.

What is the first wind corporate PPA in Italy?

In May 2019, it was announced that DXT Commodities, Duferdofin Nucor and Fera had agreed the first wind corporate PPA in Italy.

Why is demand for PPAs increasing in Italy?

Indeed, demand for PPAs in Italy is on an upward trajectory both from corporate buyers as well as utilities/sellers. One of the major drivers pushing this response from wide-ranging market players is what's known as "FER X" legislation.

How much electricity does Italy generate a year?

In total, Italy's clean electricity generation hit a record 88 terawatt hours (TWh) during the January to August period, compared to 73.4 TWh during the same months in 2023.
