

Ivory Coast best solar generator for home backup

We've gone from small portable power stations for camping to huge solar generators that are closer to home solar power systems in capability. The Hysolis Apollo 5K is one of these heavy duty solar generators. It has a capacity of 5,376Wh. As far as we know, it's currently the largest capacity portable solar generator in the market.

In this context a generator is something that produces electricity. "Solar generators" produce nothing. They store electricity they don't produce it. A battery plus an inverter doesn't some how magically become a generator. I cannot believe the number of threads were people are equivocating a gas-powered generator to a "solar generator."
