Ixora Energy General Information Description. Operator of anaerobic digestion and gas-to-grid plants across the South West, United Kingdom. The company processes energy crops, agricultural waste and animal manure to produce biogas which is used to generate renewable electricity or gas and inject it into the gas and electricity grid, thereby serving homes local to ...

Our background Condate Biogas is an anaerobic digestion (AD) facility located just outside South Molton, Devon. Opened in 2015, our plant seeks to work in harmony with local agriculture and the surrounding communities. We process agricultural feedstocks supplied by nearby farmers, primarily chicken manure and sustainably grown crops. Using high-quality AD technology, the ...
