

Does Drax support Japan?

As a supplier of sustainable biomass pellets to customers in Asia and Europe, and with more than a decade of experience in converting the UK's biggest coal-fired power station to use sustainable biomass, Drax is uniquely placed to support Japan as it further decarbonises its economy and energy system.

How does Drax support Japan's decarbonization journey?

Drax is committed to supporting Japan in its decarbonization journey, by providing a secure, reliable, renewable energy option in the form of sustainable biomass; accelerating the transition away from fossil fuels and paving the way for negative emissions.

Why is Drax launching a new office in Japan?

Launching our office in Japan is a decisive step in our ambition. With our knowledge and experience, paired with the supply of high quality, sustainable wood pellets, Drax will support Japan in delivering its post-COP26 climate objective of phasing down coal and helping integrate other intermittent renewables.
