

Who is vflowtech?

VFlowTech is a Singapore-based long duration energy storage solutions provider manufacturing low-cost and efficient modular vanadium redox flow batteries. VFlowTech's long-term vision is to drive the world towards energy equity where everyone can access clean energy at affordable pricing.

What is vflowtech's long-term vision?

Its long-term vision is to drive the world towards energy equity. VFlowTech's batteries can store and supply renewable energy over long durations and are designed to address issues of performance degradation, thermal runaway, and product reliability.

What makes vflowtech unique?

VFlowTech's unique IP and innovative approach emphasizes eco-friendly and cost-effective battery technology with long operational lifespans of more than 25 years and addresses issues of performance degradation, thermal runaway, and product reliability and safety, while being fully recyclable at end of life.

Is vflowtech a safe & environmentally friendly battery?

With a 25-year expected lifespan, VFlowTech has one of the safest and most environmentally friendly battery technologies. VFlowTech was incubated in the CleanTech lab of Singapore's Nanyang Technological University, and benefits from unique IP arising from many years of intensive research at the university.

What does an IoT Cloud intern do at vflowtech?

As an IoT Cloud Intern at VFlowTech, you will be working on developing IoT products and solutions for our energy-storage devices and smart grid.

What is VFT?

VFT Is A Spin-Off Of The CleanTech Lab Of Nanyang Technological University (NTU), Singapore, And Benefits From Unique IP Arising From Many Years Of Intensive Research At NTU. The Electrical Service Engineer Must Be Able To Work Effectively In A Collaborative, Fast Paced Environment Providing Experience On Energy Storage Systems.

News from vflowtech pte. ltd A wide array of domestic and global news stories; news topics include politics/government, business, technology, religion, sports/entertainment, ...

About VFlowTech Pte Ltd. VFlowTech is a Singapore-based energy storage solutions provider manufacturing low-cost and efficient modular vanadium redox flow batteries. VFlowTech's long-term vision is to drive the world towards energy equity where everyone can access clean energy at affordable pricing. With an energy storage solution that has an ...

PGR student Reuben Tan to work with VFlowTech on the development of a hybrid energy storage solution to improve system performance, safety, and economics. Advocating for environmental sustainability has been a persistent objective for many, with a focus on renewable energy. In recent years, the cost of renewable energy has experienced a rapid ...
