The Lebanon Energy Advisory Committee is asking Lebanon residents to complete an Energy Savings Survey. LEAC wants to connect residents with financial assistance to do energy audits, weatherize homes, ...

If Israel does target oil and gas infrastructure, a possible choice could be the aging 400 kbd Abadan refinery, which accounts for 17% of Iran's refining capacity, and 13% of its gasoline supply. However, the impact of hitting this refinery would be manageable, as fuel shortages could be offset by increased smuggling from Iraqi Kurdistan .
