

Are LONGi Solar panels a good choice?

LONGi produces a wide variety of quality, cost-effective solar panels for residential, commercial and utility-scale solar installations. The current models are the Hi-MO 4 and Hi-MO 5 series, with the new advanced Hi-MO 6 panels due to be released in early 2023.

What are the different types of LONGi Solar panels?

The current models are the Hi-MO 4 and Hi-MO 5 series, with the new advanced Hi-MO 6 panels due to be released in early 2023. LONGi's Hi-MO 5m panels are designed for residential rooftop solar systems while the larger format Hi-MO 5 panels are for commercial and utility-scale installations.

How long does a LONGi Solar panel last?

With the increased stability of Gallium-doped silicon, LONGi is able to reduce the LID effects over the first year to 2% and less than 0.5% per year for the remaining life of the panel resulting in the panel retaining close to 85% of the original power rating after an increased 30 year period.

Who is LONGi Solar?

LONGi Solar is the world's largest manufacturer of solar products, including wafers, cells and panels and was partly responsible for driving the solar industry towards more efficient monocrystalline PERC cells.

Does LONGi Solar produce monocrystalline cells?

LONGi Solar only produces monocrystalline products, and the company was largely responsible for driving the solar industry back towards more efficient monocrystalline cells after polycrystalline cell technology previously dominated the market since 2012 due to lower production costs.

Does Longi have a second generation BC panel?

"Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement. "The Hi-MO 9 panel is mainly positioned for the ground-mounted utility market."

The Longi 545W 72 CELL Solar Panel offers an excellent 21.3% maximum efficiency. Enjoy legendary Longi longevity and reliability with 25 year warranty. ... The Longi 545W 72 CELL ...
