Tarifa compensación de excedentes al uso: si estás compensando tus excedentes en una sola vivienda o empresa, los excedentes sobrantes se acumulan directamente en la cuenta sostenible para descontarlos del precio final de tus próximas facturas (cuando tú quieras). La cuenta sostenible se

puede asociar también a más puntos de suministro del mismo titular.

While adding a battery to your solar system can be advantageous for many reasons, it can be an additional cost that some would rather forgo. If this is the case, the excess power being generated by your solar panels--but not needed by your home--gets sent back to the grid and helps provide clean energy to your neighbors.

The average size of a solar panel is 5.5 feet by 6.5 feet and the average home needs between 20 and 25 panels which means the average home should have over 450 square feet of space on the roof to hold that many panels. This is just an average and every home has unique needs. ... Lumio Solar. Hardware. Financing. Tax Incentives. Roofing.

Lumio llegó para quedarse y después de nuestra venta, estaremos incluso mejor posicionados para ser el socio elegido en energía solar residencial en el largo plazo y tener un aumento sostenido en las ventas.

La Plataforma Sostenible de Lumio facilita la instalación de placas solares en comunidades de vecinos y la compartición de excedentes entre los distintos contadores de las zonas comunes, siendo sus porcentajes totalmente flexibles frente a los porcentajes estáticos del autoconsumo compartido, los cuales solo se pueden modificar presentando una nueva legalización.
