What is advanced solar generator?

The Advanced Solar Generator is a block added by Mekanism. It produces approximately 120 RF/t during daylight hours. It can be used standalone or as a component in crafting the Solar Evaporation Plant. The Advanced Solar Generator has a small internal buffer of 80,000 RF so use of an energy...

What is a Mekanism solar generator?

Mekanism Solar Generators in situ. The Advanced Solar Generator is a block added by Mekanism. It produces approximately 120 RF/t during daylight hours. It can be used standalone or as a component in crafting the Solar Evaporation Plant.

How much power does the advanced solar generator produce?

The Advanced Solar Generator only produces full power during a clear day. It produces no power during night time, and only 20% of what it would otherwise during a rain. By default the Advanced Solar Generator produces 300 J/t in direct sunlight, and can output a maximum of 600 J/t. This amount can be changed inside of the Mekanism Config.

How does the advanced solar generator work?

The Advanced Solar Generator has a small internal buffer of 80,000 RF so use of an energy storage cell is strongly recommended. The produced energy can be fed into a power grid (e.g. via Basic Universal Cable), or it can be stored into portable storage items (e.g. Basic Energy Cube or RE-Battery) inside the GUI.

How to build an advanced solar generator?

Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power of its smaller counterpart. It also requires an area of 3x3x3 Blocks in order to be placed. Universal Cable or other compatible wire can be connected to the side of the base with a green square or the bottom of the Generator.

What is generators in Mekanism V10?

Mekanism: Generators is a separate module for the main mod Mekanism. As its name suggest, this mod provides numerous ways to generate power. As of Mekanism V10, the following is a list of contents in the mod: Multiblocks: Independent generators: Gases /Fluids: Items: Misc:

a HE solar panel should be like 6 advanced solar panels a HV transformer, advanced machine block and advanced circuit. IC2 doesn't need new types of solar panels so ...

The advanced solar generator is a 3x3x3 machine and is crafted using 4 solar generators, but produces 6x more energy than a single solar generator. In order to operate, at least 5 blocks of the generator need to be in ...
