

How many microgrid projects to watch in 2023?

Here is Microgrid Knowledge's list of 23 microgrid projects to watch in 2023. It wasn't easy to narrow it down this year! Here is Microgrid Knowledge's list of 23 microgrid projects to watch in 2023 -- in no particular rank. We narrowed the list to 50 finalists and then painfully cut it to 23.

What is a microgrid project?

Here are eight microgrid projects that signal new directions for the technology: A selling point for microgrids is that they can use just about any form of generation, making them able to reap the benefits of local resources. Mostly, however, they use solar, batteries and fossil fuel generators.

Will the energy grid become a grid of microgrids?

Some energy futurists see the grid eventually becoming a grid of microgrids. For now, the concept of connecting microgrids is still in its infancy. The most notable is a project underway by Commonwealth Edison in the Bronzeville area of Chicago. The project featured here, a community being developed by KB Home, is also worth watching.

Are microgrids a good investment?

Microgrids that incorporate renewable energy resources can have environmental benefits in terms of reduced greenhouse gas emissions and air pollutants. In some cases, microgrids can sell power back to the grid during normal operations. Depending on the complexity, microgrids can have high upfront capital costs.

What are some of the newest microgrid projects in Chicago?

The most notable is a project underway by Commonwealth Edison in the Bronzeville area of Chicago. The project featured here, a community being developed by KB Home, is also worth watching. It is designed so that each home has its own nanogrid that is connected to a central microgrid.

Could microgrids be an alternative to grid resilience upgrades?

The company is considering microgrids as an alternative to part of \$9.6 billion in grid resilience upgrades. One project under consideration is a 17.5-MW microgrid connected to a utility substation that would serve 30 industrial companies, about 70 government entities, about 300 commercial businesses and about 2,200 residential customers. 5.
