

The innovation is the Micro sonic energy device which generate electricity. The Car runs on the same technology. Let me stress that the issue of patents is not the inventor's route.

103 likes, 0 comments - thrive\_movie on April 9, 2021: "Sneak Peek from THRIVE II: Inventor Maxwell Chikumbutso showcases his Microsonic Energy Device in THRIVE II: This is What it Takes. #ThriveII #Thrive2 #ThisIsWhatItTakes #documentary #ThriveOn #FreeEnergy #unifiedfield #torus #freedom #nassimhamein #greggbraden #brucelipton ...

The LinkControl Adapter allows the comfortable setting of numerous microsonic sensor families. | LCA-2. Distance sensors . cylindrical. mic+. mic+ ultrasonic sensors mic+ sensors are available in four unit variants with five different ...

3. i googled microsonic energy and even google has no idea what that is. i supposed you have discovered a new form/type/kind of energy previously unknown to all the brilliant scientists ...

COMFORT ZONE Microsonic Facial Device Jetzt bestellen In 1-2 Tagen geliefert Gratis Proben 5% Bonusprogramm Bestelle bis zum 20.12. 15:00 Uhr und erhalte dein P&#228;ckchen p&#252;nktlich zu Weihnachten\* Tel./WhatsApp: +49 6204 9112222 Telefon: Wir sind von Mo-Fr von 09:00 bis 17:00 Uhr f&#252;r dich ...

This video presentation described the feasibility to synthesize a Microsonic Plasma Energy Device at 5Watts, that may expect to power, a television set, with ...

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith ...

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. ... In 2009, Maxwell was invited by the Government of Lesotho to do a presentation of his project. He was offered a \$1,2 million dollar deal but turned it down after he met with Zach Wazara, former Econet ...

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith Technologies, there is no evidence of independent research to document if, or how, this green power technology works. Former web domains saithgroup and saithtech are ...

With Microsonic Energy The EKOS endovascular device is placed directly into the thrombus, where

micro-transducers transmit high frequency, low power sound waves. The microsonic energy causes the fibrin strands to thin, exposing plasminogen receptor sites. That makes the thrombus more permeable and allows the lytic to penetrate deeper.

Different operating modes and device configurations enable microsonic sensors to be used in all conceivable automation applications. A sensor's blind zone determines its smallest permissible detection range. No objects or disturbing reflectors should be placed in the blind zone because this can lead to incorrect measurements. The detection range

Max is clear in the Greener Power Machine he said some of the components are bought from different vendors. His invention is what generates the electricity called Microsonic device.

Definitions. This invention is directed to transducer devices for focusing energy of sonic, audible and ultrasonic waves in either transmitting devices such as loudspeakers and ultrasonic transmitters and receiving devices such as microphones and ultrasonic receivers. More particularly, the present invention is directed to transducers designed to maximize a sound ...
