**Application:** This micro-computer automatic controller for solar water heater, It is used to control integrated un-pressurized solar thermal system. It is developed using the latest NEC high-performance microcontroller to

achieve intelligent control; All devices are industry standard and maintain good operation in cold, hot and humid environments.

1. Best Overall - MISOL Solar Collector of Solar Hot Water Heater. The MISOL Solar Collector is what is known as a "passive solar collector." Rather than drawing energy from a solar panel and converting it into electricity that is used to heat the water, a passive system uses the sun's direct heat.
