

What energy sources are available in Mozambique?

Mozambique has abundant energy sources available for exploitation. As of 2021, the country was ranked first in energy potential of all the countries in the Southern African Power Pool (SAPP), with an estimated energy capacity of 187,000 MW. Available energy sources include coal, hydroelectricity, natural gas, solar energy and wind power.

How will Mozambique develop its electricity sector?

Mozambique has set significant targets for the development of its electricity sector: at least 2,300 MW of new installed capacity by 2030 and about 5 million new connections, both on grid and off grid, to achieve universal access to electricity by 2030.

Can Mozambique become an energy hub?

The government of Mozambique has established two fundamental goals in the electricity sector, to provide access to energy for the entire population by 2030 and to become an energy hub in the SSA region. To achieve those targets, it is crucial to update the least cost both on and off-grid electrification.

What is Mozambique's electricity transmission system?

In terms of electricity transmission, EDM operates most of the country's transmission infrastructure. According to the Final Energy report for Mozambique, Mozambique's national electricity transmission network is subdivided into three parts.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government views energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

What is EDM doing in Mozambique?

EDM and Mozambique support the development of renewable energy projects, having launched public tenders for solar and wind projects, the country is also exploring battery storage solutions. The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroelétrica de Cahora Bassa (HCB).

Energy access for three million people: Transforming lives in off-grid communities previously dependent on polluting and unsafe energy sources.. Pioneering regulatory support: Supporting the Government of Mozambique in creating the country's first off-grid energy regulatory framework.. Over 350,000 solar connections: Delivering reliable ...
